At The Town House Dental Practice, located in both Brighton and Tunbridge Wells, we pride ourselves on offering a comprehensive range of referral services to meet the diverse needs of your patients. Our referral team provides expert care in areas such as implants, endodontics, periodontics and oral surgery.

Our mission is to ensure that the referral process is seamless and stress-free for both referring dentists and patients. We understand the importance of clear communication and efficient coordination, which is why we offer an easy-to-use online referral form. This ensures timely and accurate referrals, making the transition smooth for everyone involved.

We are committed to providing the highest standard of care, using state-of-the-art technology and personalised treatment plans. By partnering with us, you can trust that your patients are in excellent hands, receiving the specialised attention they need in a comfortable and supportive environment.

Explore our referral services and discover how we can assist you in delivering exceptional dental care. Thank you for considering The Town House Dental Practice for your referral needs.

Our Process

1

INITIAL CONTACT

Upon receiving the referral, our team will promptly contact the patient to schedule an appointment at their convenience. Our friendly team will guide the patient through the booking process and answer any preliminary questions they may have.

2

CLINICAL ASSESSMENT

At the initial appointment, the patient will meet with one of our expert dentists in either our Brighton or Tunbridge Wells practice. During this assessment, the dentist will conduct a thorough examination and discuss dental history and concerns. We use state-of-the-art diagnostic tools to ensure an accurate assessment.

3

TREATMENT PLAN

Based on the assessment, we will develop a customised treatment plan tailored to the patient's specific needs. This plan will outline the recommended procedures, timeline, and associated costs. The patient will receive this plan in detail, and our team will be available to discuss any questions or adjustments.

4

TREATMENT COMPLETION

The treatment will be carried out by our experienced team using the latest techniques and technology. Whether it's an implant placement, root canal treatment, or oral surgery, we ensure a comfortable and professional experience throughout the process.

5

POST-TREATMENT FOLLOW UP

After the treatment is completed, we will provide the patient with comprehensive aftercare instructions to ensure a smooth recovery. Our team is always available for any follow-up questions or concerns.

5

COMMUNICATION TO REFERRING DENTIST

We believe in seamless communication with the referring dentist. Once the treatment is completed, we will send a detailed report back to you, including the treatment performed and any recommendations for future care.

Implants

📍 BRIGHTON & TUNBRIDGE WELLS

5

At The Town House, we offer implant referral services using the latest technology and techniques to ensure precision and outstanding results. Our implant team, led by Dr. Peter Bell, who holds a Masters in Implantology, is equipped to handle a wide range of dental implant cases, from the simple to the complex. We utilise a 3D guided system for all implant placements, ensuring accuracy and optimal outcomes. We proudly use a range of dental implants including Straumann, Southern Implants and Ankylos Implants.

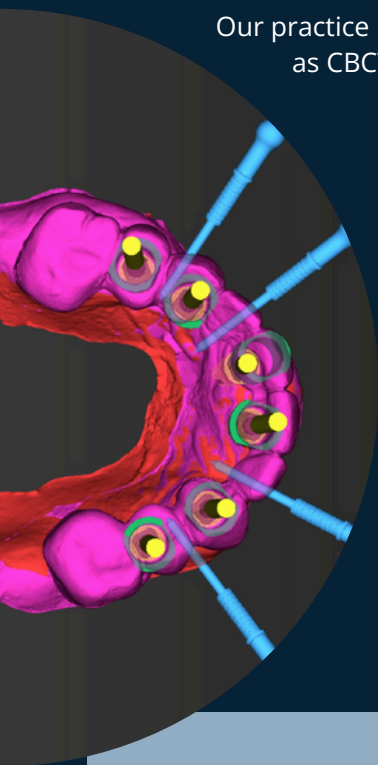

Dr. Peter Bell brings a wealth of knowledge and experience to our implant team, ensuring that every patient receives the highest standard of care throughout their treatment journey. His expertise in Implantology, combined with our state-of-the-art technology, allows us to offer a seamless and effective implant service.

Our practice has placed and restored hundreds of dental implants, leveraging advanced tools such as CBCT bone imaging and 3D printing for surgical guides.

Our Implant Services Include

- Comprehensive consultations with x-rays, detailed reports, tailored treatment plans, and cost estimates.
- Solutions for **single, multiple, denture stabilisation** and **all-on-four** dental implants.
- Procedures such as **bone grafting, soft-tissue grafting,** and **sinus lift** surgery.
- Advanced grafting techniques, including block grafting and GBR.
- Thorough aftercare and ongoing monitoring.

At The Town House, we are dedicated to providing exceptional care and ensuring the best possible outcomes for all our patients. When you refer your patients to us, you can be confident that they will receive expert treatment in a supportive and technologically advanced environment.

At The Town House, we offer advanced OPG (Orthopantomogram) referral services using state-of-the-art imaging technology. Our OPG scans provide comprehensive panoramic X-rays that enable precise diagnosis and effective treatment planning for a wide range of dental and maxillofacial conditions.

Refer your patients to The Town House for OPG scans and ensure they receive the highest standard of care with advanced imaging technology, detailed diagnosis, and precise treatment planning.

REFERRAL FORM

BENEFITS OF OUR OPG SERVICES

Detailed Imaging

Our OPG scans deliver clear and detailed panoramic images of the entire mouth, including teeth, jaws, and surrounding structures

Accurate Diagnosis

Helps in identifying dental issues such as impacted teeth, jaw abnormalities, and other oral health concerns

Comprehensive Treatment Planning

Facilitates precise planning for treatments, including orthodontics, implant placement, and oral surgery

Patient Comfort

The procedure is quick, non-invasive, and comfortable for patients

Convenient Access

Referring dentists receive high-quality images promptly, allowing for timely and effective patient care.

OPG Fees

Single OPG Scan	£65
Sending Scan	Free

CBCT

**BRIGHTON &
TUNBRIDGE WELLS**

9

REFERRAL FORM

CBCT scans are essential for diagnosing, planning, and following up on treatments for conditions affecting the head, face, teeth, and jaw. These scans are particularly valuable for complex procedures in endodontics, oral surgery, prosthodontics, and implant cases. Whenever a detailed 3D image is required, we can perform the scan using our CBCT.

KEY FEATURES OF OUR CBCT

Sharp Layer Technology

Automatically adjusts to the patient's anatomical features, ensuring the entire jaw is captured in sharp detail

Comprehensive Imaging

Generates several hundred individual images in just seconds, creating a detailed 3D model of the jaw

Virtual Tour

Allows data assessment from every dimension for thorough analysis

Immediate Access

Scans are sent via secure email the same day, or provided on a disk for patient convenience, ready for your review and diagnosis.

BENEFITS FOR PATIENTS

Enhanced Case Planning

Provides more accurate and detailed imaging for treatment planning

High-Quality Images

Delivers razor-sharp, high-contrast panoramic X-rays

Improved Outcomes

Helps increase the success rates of procedures

Patient-Friendly

Consultations become more accessible and understandable

Convenience

The procedure is quick and easy for patients.

CBCT Fees

CBCT Small (One tooth)	£150
CBCT One Arch	£200
CBCT Dual Arch	£250

The Team

Dr. Peter Bell

GDC 270959

Diplmp

📍 Brighton & Tunbridge Wells
